MARKETING AND INTERACTIVE RELEASE

Advent Entertainment, LLC plans to use digital displays, where allowed, with the release of the feature films in theaters and provide for instant merchandising and interaction with fans. We plan to make purchasing through our displays available in both traditional methods of payment as well as cryptocurrency, including Advent Tokens. Marketing, smart theater creation, augmented reality, virtual reality and digital screens are set up with the goal to greatly enhance the reception of our projects.

SOCIAL MARKETING WITH VISUAL EFFECTS

Using a combination of the digital displays, embedded cameras and visual effects technology we plan to allow moviegoers to become a part of the events inside the screen. Imagine posing next to your favorite hero or animated character in their world and in their poster. In our development plan, moviegoers will be able to post themselves with their favorite movie stars and characters to their social networks and our hope is that this technology will drive social marketing for films and merchandise to a much higher level.

ADVENTLIVE

VIRTUAL AND AUGMENTED REALITY

Our development plans include the ability to have a moviegoer simply scan the symbol on a poster with their telephone or tablet, download an app and be able to unlock virtual reality and augmented reality in the lobby and hallways of the theater. Through their phone or tablet they will be able to see fantastical worlds within the theater or superheroes saving the day. Our vision is to make the theater a virtual reality theme park and each new movie can bring with it new adventures in the lobby and hallways. Development plans to allow films to actively participate through marketing events – for example an "Easter Egg" type challenges for moviegoers.

Offering was closed on October 1, 2019.

AIRDROP INCENTIVE DETAILS

According to the results of the sales period of the Offering Memorandum dated October 2, 2018 and closed October 1, 2019, 349,875,000 Advent Tokens have been reserved for the Advent Token Airdrop Incentive Program. Advent Entertainment, LLC may fund entertainment and technology projects from the sale and/or use of Airdrop Advent Tokens. For example, if a particular project is partially funded by the Airdrop Advent Tokens with an associated back-end portion of profit percentage of 20% and the project derives total profits of \$100,000,000 US dollars, we will convert \$20,000,000 (20% of the back-end profits of the project) into Advent Tokens and distribute such Tokens pro rata among all existing Advent holders along with the next scheduled Airdrop. Thus, Advent holders will derive a benefit from many of the films, television shows and innovative technology projects created by the Token Issuer and/or our Affiliates. Back-end percentages for projects will vary as each deal may be different. The schedule of the Airdrop Incentive program will be determined by the Company. The total amount of tokens associated with each Airdrop will be divided among all current Advent Token owners.

This program has been created to allow Advent Token holders to participate in the profits of the film and television projects created with the use of the Airdrop Advent Tokens and to promote long-term holding of the Advent Tokens.
